

# Catchments Corridors & Coasts 2020

Proud Major Sponsor

January 21st - 23rd 2020

*... A Snapshot of Environmental  
Education in WA*

## Comments From Past Participants

*'A very diverse and interesting exposure to a wide range of environmental issues!'*

*'Highly enjoyed the field visits and useful resources that I can use in the workplace and my job.'*

*'Leading change is easier than you think. Experience systems thinking in action.'*

*'I wasn't quite sure what to expect, but exceeded my expectations.'*

Environmental Education (WA)**

## Catchments, Corridors and Coasts January 21st – 23rd 2020

Presented by the  
**Australian Association for  
Environmental Education (WA)**

Snorkelling in the ocean, walking in the bush, getting up close and personal with native fauna, sharing experiences with environmental educators – these are just some of the activities you can expect when you participate in the action packed Catchments, Corridors and Coasts (CCC) Program.

CCC provides a ‘snapshot’ of environmental education in WA from catchments, through corridors to the coast. It provides a rich experience, facilitating the development of networks with and between practitioners, and an awareness of the resources and support across WA to help address core environmental and sustainability issues in the State. Learn about environmental issues, what is being done by community groups and various levels of government, what resources are available and how we can all work together for a better environment.

It is a practical program, which focuses on learning through experience and skill development, while also reflecting the synergies between the environmental education practitioners in WA. CCC will provide a wealth of take home resources, which will form a toolkit for participants to use in their own workplace. All of the program content can be linked to the current Western Australian curriculum, along with links to the Australian Curriculum. This event practises low-waste initiatives.

### Who Should Attend?

The program is suitable for tertiary students or new graduates; community members & groups; youth organisations; teachers; student teachers; Sustainable Schools WA participants; private sector personnel, Environmental Officers; Local Government Officers; and State Government Department Officers.

You will gain: resources, practical experience, networking, skills and knowledge, learn some new fun activities with links to the curriculum, links to practitioners, toolkit for teaching and learning, or for environmental education as a management tool.

#### Day 1 - Exploring the Upper Catchment

Tuesday 21st January

Red Hill Waste Management Facility; farm, salinity & NRM issues; Shire of Mundaring; Perth Hills Discovery Centre, Department of Biodiversity, Conservation and Attractions; Nearer to Nature; Kanyana Wildlife Rehabilitation Centre.

#### Day 2 - Enjoying the Corridor

Wednesday 22nd January

Environmental Technology Centre, Murdoch University; permaculture; greywater re-use; Perth Zoo Native Species Breeding Program; South East Regional Centre for Urban Landcare; Phosphorus Awareness Project; Canning River Eco Education Centre; Turtle Watch; Department of Biodiversity, Conservation and Attractions, River Guardians; Indigenous Heritage.

#### Day 3 - Experiencing the Coast

Thursday 23rd January

Fisheries - Department of Primary Industries and Regional Development; Butler College Marine Studies, snorkelling; Coastcare; Education for Sustainability Expo; Sustainable Schools WA Initiative; AAEE WA Chapter; Evaluation & Conclusion.

*Please note: Whilst every endeavour will be made to ensure the above organisations participate in CCC, organisations may be subject to change without notice.*
